ABDULLAH TARIQ

JUNIOR PYTHON BACKEND DEVELOPER | AI APPLICATION DEVELOPER

Nankana Sahib, Pakistan | 0308-1244633 | abdullahtariq.nns.966@gmail.com
GitHub: https://github.com/Abdullah-966 | Portfolio: https://abdullah-dev-966-portfolio.vercel.app/

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on project experience in Python, FastAPI, REST APIs, JavaScript, Flutter, and Firebase. Interested in building reliable backend services and AI-powered applications using LLM APIs. Seeking a junior developer role or internship where I can contribute to practical software projects and continue strengthening my engineering skills.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, HTML, CSS, React
- **Backend & APIs:** FastAPI, REST APIs
- **Frontend & Mobile:** Flutter, WebView integration
- **Data & Tools:** SQL, Firebase, Git, GitHub, VS Code, Vercel, Google AI Studio
- **AI:** LLM APIs, Prompt Engineering

SELECTED PROJECTS

DocuFlow AI | React, FastAPI, Python, PDF text extraction | https://documentflow-ai.vercel.app/ • https://github.com/Abdullah-dev-42/DocuFlow-AI

- Developed a full-stack document analysis tool designed to parse corporate PDFs and automatically extract critical information such as project deadlines, key action points, and potential risk factors.
- Empowers companies to efficiently manage document workflows, proactively mitigate risks, and successfully meet project milestones.

Career Bridge (Final Year Project) | Flutter, APIs, Firebase

- Architected a comprehensive mobile platform bridging the communication gap between industry recruiters and university students.
- Features job and internship recommendations tailored to a student's specific technology stack, personalized career guidance, and a transparent, merit-based hiring workflow.

Event Manager App | Flutter, APIs, Firebase

- Built a mobile application for streamlining university-wide event organization as a semester project.
- Implemented an end-to-end workflow including event creation, dynamic facility allocation, hierarchical role permissions, and a robust administrative approval system.

Rising Star School Website | HTML, CSS, JavaScript | https://github.com/Abdullah-966/rising_star_school-v2.0.1 • https://risingstarschool-v201.vercel.app/

- Delivered a responsive frontend UI/UX demo for a client's school website request, showcasing modern web layout practices and clean structural design.

EDUCATION

BS Computer Science | Baba Guru Nanak University | 2022 - 2026 | CGPA: 3.49/4.00

Relevant Coursework: Artificial Intelligence, Machine Learning, Data Structures & Algorithms, Database Systems, Software Engineering, Web Development, Operating Systems.
